

— A Strong Voice
For a Strong District

Statement from Rep. Sheldon Wasserman

It's unfortunate that Senator Darling is so desperate that she is making such baseless claims. I would expect more from our Senator. I have never said she was unfit for office because of her health problems. I have said that she is unfit for office because of her flip flopping on issues important to the district.

I am happy to hear that her health is good. I have never brought up or implied anything about Senator Darling's health. In fact she quotes the source of the story as a Milwaukee Magazine article that ran several weeks ago and is just now being refuted. The real question is why did it take her so long to bring up this story.

I am a member of the Wisconsin Breast Cancer Coalition and I have worked hard as legislator and doctor to fight this disease and I know how hard it can be on women and their families.

The voters of the 8th Senate District will have plenty to decide upon this election on and I encourage them to vote based on the issues.
